AWARD:

Multiple awards will be made to any and all responsive and responsible bidders. There is no guarantee any purchase order will be issued after award. Purchase orders will be issued subject to availability of funds.

INVOICING:

Invoices will be issued once supplies are shipped and delivered to our using agencies. At a minimum, invoices must include: Purchase Order number, Item Number and Description, date of shipment, quantity ordered, unit price, unit of measure, and a total for all purchases. The vendor will work with the Procurement and Accounts Payable Division to determine mutually agreeable alternatives to invoicing such as: summary Billing Reports or Electronic Data Interchange (EDI). Standard payment terms are Net 30 Days.

TERMS OF CONTRACT:

The Price Agreement Contract for Park and Playground Equipment will be from June 1, 2006 through May 31, 2007, with two (2) one (1) year renewal options.

Renewal option(s) are at the discretion of the City based on the successful bidder(s) performance and adherence to the terms, conditions and requirements in maintaining firm percentage(s) for the following year(s), within 30 days of contract expiration. All percentages will remain firm for the period of each contract year.

STATE CONTRACTS:

The City is entitled to purchase from contracts established by the State of Florida. Should the State establish a contract for item or items on this bid, the City reserves the right to cancel this contract in whole or in part and purchase those item(s) from the State contract, if in its best interest.

METHOD OF ORDERING:

The City of Jacksonville may generate a Request For Quotation (RFQ), on an "as needed" basis, for park and playground equipment for individual projects, together with a request for additional services required to complete that project (see sample "Request For Quotation" sheet attached to these specifications). The City reserves the right to send such RFQ to any or all awarded bidders. The RFQ can define a project exactly (number and specific type of equipment required), or the RFQ can describe a desired end result, allowing the bidder to design the park or playground site.

After generating an RFQ for a project, and before bidder's submission of its quotation in response to the RFQ, the City will require requested bidder(s) to attend a site visit with City personnel to familiarize the bidder(s) with the site and determine additional services that may be required to complete the project. Such services may include, but are not limited to, sidewalk and/or concrete work, borders, site clearing, site work and restoration, fill, drainage pipe laying, etc. Bidders will be responsible for the accuracy of all fixed measurements.

The bidder's quotation in response to the RFQ must contain each of the following:

- A detailed breakdown of the cost for the entire project. All equipment quoted shall be on a component basis, listing each component part number and current component MSRP. Descriptions of additional services required, together with their price, shall also be listed, such as freight charges, sidewalk and/or concrete work, site clearing, site work and restoration, fill, drainage pipe laying, borders, etc.
- Names of any and all subcontractors on the project, together with their designated work and costs. It is understood the bidder remains responsible for project completion and acceptance by the City. The City reserves the right to reject any quotation in response to an RFQ if said quotation names a subcontractor who has, in the sole opinion of the City, previously failed in the proper performance of an award or failed to deliver on time contracts of a similar nature, or who is not in a position to perform properly under this award.

- A date certain by which the project must be completed.
- Include an updated catalog, if needed, and updated MSRP lists for the park and play equipment specifically quoted.

The City will generate purchase orders as a result of approved "Request For Quotations" submitted, at the sole discretion of the City. The City reserves the right to not award to any, or to go outside the contract to award.

PROMOTIONAL PRICING:

During the contract period, bidders will extend any pricing offered on a "promotional" basis from the manufacturer to the City. It will be the bidder's responsibility to monitor said items and report any that are or will be offered at lower prices.

F.O.B. POINT (FREIGHT):

On any Request For Quotation, the City will indicate the exact installation point. The bidder must then set freight charges, offering F.O.B. delivered. This price will be indicated on any purchase order issued. Bidders are responsible for supplying all labor, materials, and equipment required for the off-loading and placement of items as directed at all delivery locations, without the assistance of City of Jacksonville personnel. Additionally, bidder will arrange for and be responsible for any storage of materials and equipment received.

PERMITS, FEES AND NOTIFICATIONS:

It shall be the bidder's responsibility to secure and pay for any and all permits that may be required to accomplish the work associated with the performance of these Bid Specifications. The City will not honor any request for payment of permits.

PAYMENT:

Price agreement contracts will be issued only to the vendor/manufacturer who submitted an awarded bid proposal. No split order payments separating equipment vendor payment from installer payment will be issued by the City of Jacksonville. Payment for installation charges will be the responsibility of the bidder. Payment for both equipment and installation will be made only upon completion of the entire scope of work and subsequent acceptance by the City of Jacksonville.

WARRANTY:

The successful bidder shall fully warrant, in writing within 30 days of final acceptance by City, all furnished or furnished/installed equipment to be free of defects in materials and/or workmanship for a period of at least one (1) year from date of installation and acceptance by City of Jacksonville. Successful bidder shall repair and/or replace, at no additional cost to City of Jacksonville, any defects or malfunctions noted during the warranty period. In addition, successful bidder shall transfer any manufacturer's guarantee to the City, in writing within 30 days of final acceptance by City, for supplier/installer furnished equipment extending beyond this contract period.

SUPERVISION:

A bidder job supervisor/representative will be on the work site at all times and be thoroughly knowledgeable of the materials, job requirements, plans, specifications and installation functions.

JOB COMPLETION:

Bidder/contractor/installer will be responsible for all materials received and signed for from date of order to completion of job installation.

Bidder/installer will be responsible for clean up and removal of all debris resulting in job completion, leaving work site in neat and orderly fashion at the end of each workday. Additionally, bidder/installer will be responsible for restoring the work site to its original condition at the completion of the project.

RESPONSIBILITY FOR DAMAGES AND PRESERVATION OF PROPERTY:

The bidder shall use due care to avoid damaging all property associated with, adjacent to, or in any way affected by the work being performed. This applies to private property as well as public property and all utilities which may exist within the work area. Any damage occurring to such items by bidder shall be immediately repaired or replaced to a condition at least equal to that which existed prior to the damage. All costs incurred for repair or replacement shall be borne by bidder. Any damages not repaired or replaced by the bidder within ten (10) calendar days from notification will be fixed by the City or its contractor, and the cost shall be paid by the bidder or deducted from their invoice.

VIOLATIONS/DEFAULT:

In the event the awarded bidder(s) should violate any provisions of this bid, such bidder will be given written notice stating the deficiencies and given ten (10) days to correct deficiencies found. The City reserves the right to terminate any contract at any time due to any violation.

In the event the awarded bidder(s) should breach this contract, the City reserves the right to seek all remedies in law and/or in equity.

Failure of an awarded bidder to adhere to completion dates defined in its Request for Quotation may result in no further awards being made to such bidder under this Price Agreement Contract.

CORRECTIONS MADE BY BIDDER:

Bidders are cautioned not to obliterate, erase, or strike over any printed material as set forth in this bid invitation. In quoting prices, whether unit prices or total price, wherever bidders have made an error, or has corrected it, any and all such corrections should be initialed by the person signing the bid cover sheet. Failure to comply with this provision may result in rejection of bid.

GENERAL CONDITIONS:

Signature on bid form verifies that the bidder is acquainted with the general conditions contained herein and will comply with all specifications, terms and conditions contained in this bid invitation.

INSURANCE, WORKER'S COMPENSATION:

The contractor shall take out and maintain during the life of this agreement, worker's compensation insurance for all of his employees connected with the work of this project and, in case any work is sublet, the contractor shall require the subcontractor similarly to provide worker's compensation insurance for all of the latter's employees unless such employees are covered by the protection afforded by the contractor. Such insurance shall comply fully with the Florida worker's compensation law. In case any class of employees engaged in hazardous work under this contract at the site of the project is not protected under the workmen's compensation statute, the contractor shall provide, and cause each sub-contractor to provide, adequate insurance, satisfactory to the purchaser, for the protection of his employees not otherwise protected. The awarded vendor must submit a copy of an insurance certificate naming the City as additional insured no later than ten (10) days after the award has been made.

COOPERATIVE PURCHASES:

This is a cooperative purchase contract. State law allows any government agency and any accredited school in the state to buy off this contract without going to bid, as long as it does not conflict with any of their local regulations.
